

Security and Compliance in Healthcare

Is your hospital prepared for the next Cyber Attack?

Cyber criminals have not gone into quarantine during the coronavirus crisis. They continue to seek system vulnerabilities, and they have no mercy for hospitals.

In fact, attacks on hospitals have increased by 150% in the past month, a significant increase pushing the [Government of Canada to issue an alert](#) on March 2020 for Cyber threats to Canadian Health organizations.

Optimizing your hospital's cybersecurity posture will ensure patient safety, data confidentiality, and continuous healthcare service.

Join Check Point and FlexITy for a webinar on Tuesday, April 28, 2020 to learn how you can prevent the next cyber attack and protect your hospital's staff and patients.

Please register for the session that best fits your schedule:

[April 28, 2020 9 am PST | 12 pm EST](#)

We hope to see you there,

Brad Riddell
Vice President of CyberSecurity
